Recognizing growth and innovation

The fastest-growing technology and life sciences companies in North America

# 2025 Technology Fast 500™

Technology Fast 500 provides a ranking of the fastest-growing technology, media, telecommunications, life sciences, fintech, and energy tech companies. Technology Fast 500 award winners for 2025 were selected based on percentage of fiscal year revenue growth during the period from 2021 to 2024.

## In the company's own words

Elisity is a leap forward in network segmentation architecture and is leading the enterprise effort to achieve Zero Trust maturity, proactively prevent security risks, and reduce network complexity. Designed to be implemented in days, without downtime, upon implementation, the platform rapidly discovers every user, workload and device on an enterprise network and correlates comprehensive insights into the Elisity IdentityGraph . This empowers teams with the context needed to automate classification and apply dynamic security policies to any device wherever and whenever it appears on the network. These granular, identity-based microsegmentation security policies are managed in the cloud and enforced using your existing network switching infrastructure in real-time, even on ephemeral IT/IoT/OT devices. Founded in 2019, Elisity has a global employee footprint and a growing number of customers in the Fortune 500.
